Dear David and all,

A HAPPY NEW YEAR TO YOU ALL FROM US ALL !

Students Service

The most exciting news we've seen for a long time — The ISS and ourselves will be lapping up all future news of the project.

Impressions of Germany.

I hope you will give us these when you are able. Any thing first hand is always absorbing to us who wear the black coat and trousers.

German IVSP Title.

Your brothers over the way have written asking if they could have permission to use, as well as the usual arm-flash the German IVSP title. They wanted 'Internationaler Freiwilliger Friedensdienst' instead of 'Zivildienst'. Miss Roberts has since advised them against such a course, and the National Committee here did not feel that it had authority to alter the title and would wish it to be referred to the first meeting of the International Committee. We would like to have your team's views on the proposed change of title and on the question of desirability. It was felt that if it ever did go through that it should ... to all teams in Germany. We have told Unit 5 to open it again as soon as they feel the time is ripe!

Cheerio and very best wishes,
Yours ever,
