27th January 1946

Dear John,

Report 40

.....
.....

Liaison Officer :

We discussed this yesterday, and on the assumption that we will almost immediately have three teams in Germany and that therefore we shall be entitled to ask for a L.O. at HQ 5, we think it would be a good thing to have one. There is the question whether having one of our own would not be unnecessarily increasing the overheads of relief work if the F.R.S. man could do the work for us. On the other hand, we don't know Eric Cleaver . . .

.....
.....

German Name :

It was felt that we did not want an additional flash, and that as it was not for us to change the international name and a vote will probably be taken from the Movement later, we should not proceed further at the moment.

Contacts :

The letter to Pastor Mensching of which I enclose a copy is self-explanatory; except that you may not know that he has recently obtained permission from the Military Government to restart the FOR, of which he has been Secretary in Germany for many years.

.....
.....

And that, I think, is that.

All the best!

Amities,

David
