

R E P O R T
ON THE 5th WEEKEND WORK PROJECT AT BORGWEDEL, JULY 10 / 11, 1948

Seven German and British members of Service Civil International with one Ambulance and one tent, numerous picks and shovels arrived once again in Borgwedel, on Saturday last.

Work continued in the proposed play-ground. We worked for about 10 hours on levelling. The Kreisjugendpfleger (County Youth Organiser) who visited us was very pleased with the amount accomplished.

Being such a small group we did less singing and dancing than usual, and we talked all the more. Palestine, Nudism, Jews and Spiritualism being the main tropics. (The last prompted by the fact that it was midnight and the moon was at it's first quarter).

The camp spirit was excellent; we had a real feeling of Unity amongst us. The camp was led by Kurt Thede, who did the job in a pleasant, tactful and efficient way.
