The period opened with a bang - caused by the wedding of Herbert and Denise on May 30. They were, of course, already married in Belgium, but the papers were only lately received which made possible their official German wedding.

On May 1 I went to England, to attend an Executive meeting and stayed over Whitsun for a few days leave, returning to Germany on Tuesday 7. The official proceedings of this trip are already recorded in the minutes of the Executive meeting. Briefly, the decisions regarding myself were :

1. It was agreed that it was desirable to keep someone in Germany until January (or even March) 1950

in view of the financial and other advantages to IZD. I was asked if I would accept the job, and promised to give a decision later.

2. IVSP is willing to pay the cost of the damages due to my car accident in the first instance, and I announced my intention of repaying this sum when I was once more earning a salary.

3. I agreed to take leave in the near future.

4. I promised to have a medical exam and send a report to London.

Technical details concerning the interchange of volunteers between England and Germany were also discussed later with Derek and Betty.

The remainder of the period was spent clearing away the letters which had accumulated in my absence.
