Dr. Robert Lienhart  
Landrat  
Donaueschingen  
Baden

Dear Dr. Lienhart:

After discussing the Donaueschingen building project further with the other organizations who are interested, we have decided that we would like to operate our camp in the city itself. As we understand, the I.Z.D. and the Nothelfergemeinschaft will be the two other organizations within the city. We will get in touch with you further on the details that need to be worked out but most of these will naturally be handled through coordination of the organizations concerned. In accordance with the possibilities which we discussed at the time that Mr. Krahe and I visited you, we would want to operate our camp as an independent unit in every way, including the operation of the kitchen.

We appreciate very much your eagerness to cooperate in this effort and are glad for the opportunity to share with our fellow organizations in this way.

Give our regards to your family.

Sincerely yours,

MENNONITE CENTRAL COMMITTEE

Paul Peachey
