Cause masons on Baustelle are almost unemployed when their jobbers leave at four o'clock and this a destitute for "Neue Heimat" means, we decided to work our week and service partly from four till fine. Others will work as usual on Saturday afternoon.

8. Gesundheitszustand, Unfälle:

Cold and wet weather, one stayed in bed for three days. Broken rib of Heino Sommer didn't allow him to do heavy work for five days.

9. Sonstige Bemerkungen über das Lager:

All newcomers of last weeks are very willing people. This gives the group many positive possibilities. A great wand under such circumstances is a nucleus to give direction. This particular group at the moment isn't very strange nor quantitative nor qualitative. Although we are still on the right way, two or three experienced vol. are urgently needed. The move, cause two "old men" are leaving at the end of the month.
