Dear Dora or who else is there,

As Meta is going to visit us some of the next days I want to forward the 10-days report directly. We are so sorry, that we were not able to give you a more particular report in the meantime, but most of us were always too busy that we didn't manage. So I am still as it is just the end of the month and the accounts have to be made up.

Especially the last weeks were rather trouble – some of the Scouts de France turned up and nobody here knew something about them. But helped by Robert Lienhart, the "Landrat", and the "Kreisverwaltung" they managed to settle down as a camp for their own. Unfortunately we were so many workers now and there was hardly a job to be done for them. But in the meantime we arranged even that – they had to leave yesterday. But we hope a second group will continue. They were nice fellows, but their work-effect is to be doubted a little bit.

The inside life of the camp too is not such as we should like to have it. That is perhaps due to the fact that there are too many newcomers in this camp; most of them with a quite certain idea of communitylife.

Levente Pasztohy joined us some days ago. He is very energetic and trying to make the camp change to the better. I hope he will be successful.

I almost forgot to thank you for the last letter from May 22nd, when Ernst was still here. Now it was our turn to have a bad conscience, but at any rate we at that time appreciated very much the lot of news you gave us about the development of our work all over the world.

I myself hope to be able to leave for Poitiers very soon. So we perhaps will be able to meet in Paris after the Poitiers-service has finished.

With best wishes to all of you  
I remain also on behalf of all friends,  
Yours sincerely

Jochen Wesseloh
