To all those interested in the project Berlin II

Dear friends,

thanks to all of you who helped with their thoughts and wisdom to find a solution to the questions, but confusion is still great and we need first of all time to discuss and decide. Therefore the following decisions has been made :

The camp in Berlin at the Johannisstift will finish February 10th. Volunteers who want to stay and go on with the work can do so on a private basis.

Berlin II does not start at this moment but interested volunteers from Berlin are invited to come to the camp at Neuenkirchen and stay there for at least four weeks to work at the project and prepare together with Peter Keller, our camp-leader there, and the group of COs, who should be interested, a later camp Berlin II

Verena und Kenn will be invited to attend the secretaries Meeting and the German AGM from March 1st to 4th, at Bochum.

Dorothy Guiborat is putting a question of procedure : should a branch appeal directly to the IC members for their opinion when it has a difficult decision to take, or should the appeal pass through IS / ES ?

Thanks again for co-operation
on an international basis.
I take it for granted that you
do not wait for a personal in-
vitation to attend our AGM if
you have the time, you are most
welcome !

Amitié

Roswitha Villinger
