Dear M. Marek,

Following our successful exchange of volunteers in 1963, the International Committee of Service Civil International very much hopes that we shall again collaborate in the organisation of workcamp activities in 1964.

M. Klos of the International Bureau for Tourism and Youth has kindly informed us that you plan an International Friendship workcamp in Czechoslovakia during July and August. We should be very glad if you would inform us of all details available now concerning this workcamp, and confirming that you expect a stated number of volunteers from Service Civil International to participate.

As we are already making preparations for our summer workcamp programme, we hope that you will write to us concerning this International Friendship camp without delay. We look forward with great pleasure to hearing from you, and assure you that we very much appreciate your cooperation.

With best wishes for the New Year,
Yours sincerely,

Janet Goodricke
Acting European Secretary
